The Missouri Telehealth Network exists to:

- Increase access to health care for underserved Missourians;
- Provide educational opportunities for health care providers;
- Increase acceptance and use of telehealth in Missouri;
- Provide unbiased information about telehealth.

As an institutional member of the American Telemedicine Association and the Center for Telehealth & e-Health Law, MTN is able to keep current with new telehealth policies and issues and pass this information to its members!

Benefits to Membership:

- CME Programming for physicians from University of Missouri School of Medicine via video.
- Informational e-mail updates regarding the network, upcoming programs and training.
- Sample clinical protocols, patient consent forms and more.
- 2 passes to MTN 2-day Training Conference.

Current members include:

- Federally Qualified Health Centers
- Regional & Critical Access Hospitals
- Community Mental Health Centers
- Rural Health Clinics
- State facilities
- Health Systems
- Nursing Homes, among others

Missouri is one of three states in the Heartland Telehealth Resource Center, a federally funded regional telehealth resource center. HTRC will assist with business planning, ROI, telehealth equipment information and more.
